

## Taghleef Industries S.p.A.

FOR IMMEDIATE RELEASE

25/09/12

### EXTENDO™ range expands with new coated films

Taghleef Industries in exclusive partnership with INVICO SA are glad to announce the introduction of new coated films capacity, expanding its capabilities on the market. The coated films will benefit EXTENDO™'s portfolio.

EXTENDO™ is the trademark developed by Taghleef Industries that characterizes new barrier and high-barrier films manufactured from BoPP as well as bio-based and compostable BoPLA films.

To meet the market needs, *Ti* and INVICO SA decided to start the production of coated BoPP and BoPLA films. The project, which started in 2010, includes the purchase and installation of two modern production lines for coating films with a total capacity of 12,000 t/y. The first line will be operative from Q4 2012 starting with acrylic coated films.

The latest generation of Swiss technology combined with the cooperation of the best chemical companies in Europe gives both *Ti* and INVICO the confidence that the products offered will meet the highest requirements by the most demanding customers.

#### ***About Taghleef Industries***

*Headquartered in Dubai, Ti currently has 8 production sites across the globe with a nominal capacity of 360,000 tons per annum. Ti develops, manufactures and markets BOPP (biaxially-oriented polypropylene), BOPLA (NATIVIA™) and CPP (cast polypropylene) films for snacks, confectionery, bakery/biscuits, fresh produce packaging as well as for labelling and adhesive tapes. Ti offers a portfolio of high quality transparent, white voided, metallised and high barrier films EXTENDO™ to its customers in more than 100 countries.*

### **About INVICO SA**

*Invico S.A. (formerly known as Pragma Trade S.A.), established in 2004 has become an unquestionable leader of the Polish market in distribution of packaging films, supplying more than 300 customers. Since 2010 Invico has focused its activity on high barrier films, and in consequence has decided to start the coating production. Invico offers coated BOPP, BOPLA, BOPET by PVDC, Acrylic, LST, PVOH, achieving special properties, including: oxygen and moisture barrier, proper sealing temperature, friction coefficient, gloss. These films are widely used in food and non-food packaging.*
