

# Recyclable Ultra High Barrier Packaging for Baked Products

## EXTENDO® XZMU

For an ideal replacement of Aluminium foil laminates, EXTENDO® XZMU provides better recyclability while keeping high barrier properties.

	Traditional Packaging	EXTENDO® Innovative Packaging
	Paper 50g/m <sup>2</sup>	Matt OPP 25 µm
	Aluminium 7 µm	EXTENDO® XZMU 30 µm
	PE 35 µm	Cast PP 25 µm
<b>Unit Weight</b>	100.69 g/m <sup>2</sup>	72.80 g/m <sup>2</sup>

### Advantages:

- Ideal replacement of multimaterial structures (Paper/Alu/PE)
- PP based barrier solution, suitable for plastic collection (PP 5)
- Easier recycling compared to traditional multimaterial packaging
- Ultra high gas and moisture barrier with excellent barrier to mineral oils and aromas
